### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: independent claims 1, 15 and the respective dependent claims are allowed because the instant invention requires a novel heald shaft rod dampening system not taught by the prior art. Specifically, the instant invention requires damping elements supported on the frame outside of the heddle body, that are movable in a transverse direction to the carrier body (frame) and longitudinally in the direction of the heald body. The closest prior art US 6789580 shows a dampening element outside the heddle but the dampening elements are affixed to the frame, unlike instant invention. The mobility of the damping element gives a much higher dampening function to the heald system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert H. Muromoto, Jr. whose telephone number is 571-272-4991. The examiner can normally be reached on 8-530, M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Welch can be reached on 571-272-4996. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
